Professor W. S. Sutton, Professor of Education at Washington and Professor E. M. Hupp, Superintendent of Berks County, Pennsylvania. Both these men have achieved prominence in the United States as leaders of the movement which has for its purpose the improvement of country schools. Other lecturers for this week will be delivered by Professor W. F. Doughty, State Superintendent of Public Instruction; Mr. F. M. Bradley, Director of the Department of Extension; J. F. Kimball, Superintendent of Schools; Temple; Professor H. T. Musselman, Editor of the Hurst School Advocate; Dallas; Professor L. L. Pugh, County Superintendent of Harris County; Professor W. S. Taylor, Associate Professor of Agricultural Education; University of Texas; and Professor W. S. Sutton, Professor of Educational Administration.

The problem of the country school will be discussed in its various phases during Rural School Week by men well qualified to speak. This week is a part of the general work of the University in its efforts to uphold and improve the social and educational welfare of the people of Texas who live in the country. President Meeks of the University has said that he would like to see posted on the desk of every instructor in the University a card upon which should be printed: "Texas is eighty per cent rural." Whether or not this is done the University of Texas is fully alive to the importance of seeing that the country boy and girl is properly educated, and much of the work of the institution has a direct bearing upon this great problem.

Cattle Record Broken.

FORT WORTH, Texas, April 2.—The eleven years' record of the Fort Worth Stockyards for the month of March was broken last month in point of cattle and calf receipts. Marketing of grown cattle was by far the most liberal of any March record.

The calf crop was only equaled by the 1913 March receipts. The cattle run, however, was large enough to overcome the slight decrease in calf statistics. The aggregate count was the most generous on record.

The sheep supply, running over 30,000 previous March, in fact the supply was just about double the supply of a year ago which broke all previous records.

This convention has been in charge of Elder Eastman. As to the valuation of the literature and the number of books, periodicals and tracts distributed this will be announced later by A. F. Harrison, field missionary agent of the Union.
